

**Assembly advice for correct use**

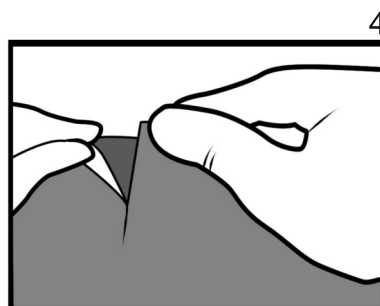

1  
Fold the patch until see the dotted line of plastic film.

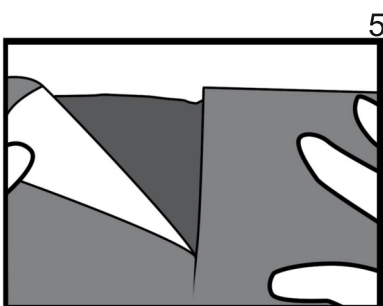

2  
Detach a lateral tip of the patch along the dotted line.

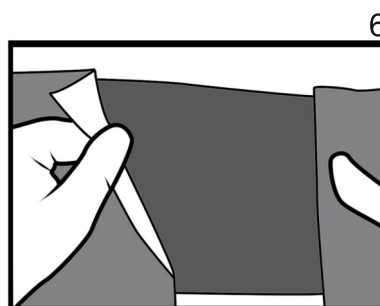

3  
Detach the other end at the side of the patch following the dotted line.

4  
Lift the leading edge of both sides and pull the plastic film.

5  
Pull the plastic film slowly and steadily until detachment of the patch.

6  
Repeat on other side and apply the patch normally.
